

Our Sustainability Policy

Management · Community · Culture · Environment

Pietra Cave Suites · Public Web Document · September 2026

At Pietra Cave Suites, we define sustainability as protecting our historic property, providing guests with a safe and authentic experience, supporting our employees, creating value for the local community and using natural resources responsibly.

Our Core Commitments

Effective Management We apply legal compliance, risk management, record keeping, training, measurement and continuous improvement practices.	Environmental Responsibility We monitor energy and water use and work to reduce waste, food waste, single-use items and environmental impacts.
Social Benefit We respect human rights, equality, safe working conditions, child rights and privacy.	Cultural Heritage We protect the historic fabric of Mustafapaşa and Pietra's authentic stone architecture through a balanced conservation-and-use approach.
Local Value Where suitable quality and continuity are available, we prioritise local/regional suppliers and the local economy.	Guest Participation We inform guests about water and energy saving, towel reuse, waste, local culture and responsible visitor behaviour.

Management and Responsibility

- General Manager Burak Uçar coordinates policy, targets, legal compliance, purchasing, training and reporting.
- Housekeeping staff member Ayşe Karagöz contributes to room hygiene, textile/consumable use, water-towel information and day-to-day implementation.

Continuous Improvement

Our policies and targets are reviewed at least annually in light of risks, legal changes, consumption data, guest feedback and operational developments.
